NEVER tell evil of a man if you do not know it for a certainty, and if you know it for a certainty, then ask yourself, "Why should I tell it?"—Lavater.

The cancer may get the Kaiser, sir; but it doesn't look like Allies can, sir.

With 85 per cent of the German vote solidly Republican anyway, why should Democracy worry?

It is said the grip is spread by kissing. Any chance of catching chicken pox by kissing one?

It is said the Kaiser is unable to speak. Those German guns have a mighty husky voice, however.

We don't really need a new pair of pants, but we have to walk facing the wind to keep from catching a cold.

The dove of peace has had a hard time of it lately, but the old bird seems to have settled down in Mexico at last.

"Latest list of German losses totals 2,287,083," says a dispatch. But the dispatch was from London, which calls for some more salt.

We are very sorry to state that the last three meetings of the Pickens chapter W. C. T. U. have been postponed on account of wetness.

Mr. Bryan's critics do not make a cent out of their yawpings. If they could command, say \$200 or \$300 per yawp, there would seem to be some method in their madness.

A friend of ours thinks that gray beards and whiskers keep lots of men from playing marbles—Gaffney Ledger. They also get in your way when you attempt to eat okra soup.

"Electric drills have been invented for operating on the skull," says a scientific note. Wonder if they are powerful enough to penetrate the skull of a baseball umpire—when your club loses?

The Anderson Mail recently had an editorial on "The Right to Snore." Better not be bragging too much about your rights; first thing you know the legislature will pass a law forbidding it.

If all the money the United States has appropriated in the past for the army and navy had been actually spent on them, this country would be the best prepared country on earth, none excepted.

The Keowee Courier is the first paper to start a column for political candidates' announcements this year, so far as we know. A Mr. Orr has announced his candidacy for the office of sheriff of Oconee county.

We imagine Congressman Lever was greatly puzzled as to who to recommend as postmaster at Columbia until he found out that Mr. Coleman was born in Pickens district. Then he recommended Mr. Coleman.

"Nerves of a pig have been successfully grafted into the body of a man," says a scientific item. And there are a lot of men we know who don't need any nerve grafted into them—pigs' nerve or any other kind.

York Nvws "extends sympathy to all those young men who acquired a brand new mother-in-law during the Christmas holidays." And they have our congratulations on acquiring a prospective brand new grandma.

Having failed to kill off the German Army, the New York newspapers are now busily engaged in killing the German emperor. They had the crown prince killed many times since the war began, but it seems he is still at the front.

Perhaps those Atlanta "reformers" will leave Mayor Woodward alone now for a while. In the recall election in Atlanta on the 4th instant Mayor Jim beat the recallers two to one, as did the commissioners who were slated for recall. It seems that Mr. Woodward is the sort of mayor Atlanta wants. So give the people what they want, say we.

We know a man named Black,
But he is white;
Also a man who's loose
When he is tight.

Spartanburg Journal wants to know "what has become of the old country mules that used to get scared when they came to town?" Those that haven't been sent to the war in Europe have turned into North Carolina paragrappers, we presume.

According to the latest political dope Colonel Roosevelt has trimmed down his list of "eligibles" for the Republican nomination to himself and Justice Hughes. The latter gentleman is tied down by the position he holds, which leaves no one on the list but "Me."

It is whispered that the clinchers will be put on the prohibition law so effectively that one solon has already prepared a bill to run the quartz out of the mountain counties.—Columbia State
Pretty tough, but guess we won't kick so long as they leave our gals. alone.

New York Sun says the reason William Waldorf Astor left this country for England was the fact that he was defeated for a seat in congress back in 1881. If all of the defeated candidates in this country should pursue the same course perhaps we wouldn't have so many demagogues on our hands.

There seems to be some common sense left in South Carolina after all. Gov. Manning some time ago "suspended" the sheriff of Kershaw county because he did not see fit to enforce the liquor law in his county. The supreme court says very emphatically that "a sheriff elected by the people cannot be put out of office by the governor." Plain as day, and the commonest kind of common sense.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. H. G. HASTINGS CO., Atlanta, Ga.—(Adv.)
